

Task Card 2: The synagogue

Look at the outside of the building:

- Can you see any evidence that this is a Jewish building used by the Jewish community?
- The building is divided into two colours – why do you think this is?
- Look at the design, is this similar or different to other religious buildings you have seen?
- If you were to cover up the Jewish symbol what might you think this building was used for?

Watch the PowerPoint slide show which shows the inside of the synagogue as well as the outside.

- Is there anything that stands out or that you notice?
- What words would you use to describe the architecture?
- What reasons can you think of to explain why the Jewish community may have had this building designed and built?

The synagogue was built between 1928-1930. Make sure these dates have been added to your timeline.
