

Task Card 3: Adding further information

Using the 'Creating a complete picture: further information' card, add any new pieces of information to the timeline you began in lesson 1.

You may want to add them in a different colour to make them stand out.

Summarise in a brief paragraph how this new information helps to develop your understanding of events in Plauen.

Focus in on when the new synagogue was built. With your new information what conclusions can you draw about why the synagogue was built? You might want to consider information about:

- Dr Isidore Goldberg
- The economic situation in Plauen and Germany in general
- The political situation

Creating a complete picture: further information
